RE: M. V. HYAK
DOCKSIDE PRESERVATION
CONTRACT 00-7039

ADDENDUM NO. 6

This is to inform you of the following updates and changes to the Invitation For Bids (IFB) for the above-referenced project:

QUESTION AND ANSWER

Attached hereto and incorporated is one (1) Question and Answer regarding the IFB Technical Specifications document.

All other terms and conditions remain unchanged. All bidders will be required to acknowledge receipt of this Addendum on the Bid Form. All Addenda will become a part of the Contract.

Sincerely,

Barbara Olson
Contracts Coordinator

QUESTION AND ANSWER

1. **Q.** [IFB Technical Specification, Item 21, Radar Replacement.] Page 48.

Bid Item 21, Radar Replacement does not appear to be complete. There are no requirements in the Item concerning the Antenna Units. There are no Cable disconnects or rip outs detailed in the Item. The only Cabling appearing on the referenced WSF Drawing 8201-652-090-05 appears to be two (2) new 24 VDC Power Cables.

- a. Are the existing Radar Antenna Units to be replaced or reused?
- b. Is the Contractor required to make any disconnections or reconnections to any of the equipment or is WSF supplying a vendor to do this work?
- c. Are there any other Units of the existing or new Systems that need to be worked or installed by the Contractor, i.e. Power Supplies, Interswitches, etc.?
- d. Are there any additional Cables to be supplied or installed by the Contractor other than those shown on WSF Drawing 8201-652-090-05?
- e. Are there any Cable rip outs necessary for the Category A Units? If so, please list the Cables, Types and Destinations.
- f. Are there any Contractor Testing requirements necessary for completion of this Item?

- A. a. through f. The absence of any such requirements is intentional. The Contractor is to follow the IFB Technical Specifications as written. Other work related to the radar replacement will be accomplished by an existing WSF electronics contractor pursuant to Section 16 of the IFB Special Provisions.

(**END**)
